

Ordering Guide

Pre-terminated 1.2mm multi-fiber cable assemblies

COMMScope®

Solutions for expanding your network's potential

With customer expectations intensifying, the need for more fiber in the network grows. Smaller, easier-to-install fiber patching solutions makes it possible. At CommScope, we're always anticipating—so you're always ready. With our new family of pre-terminated 1.2mm multi-fiber cable assemblies, you can increase density in your optical distribution frames (ODFs) and accelerate fiber deployment. One more way CommScope helps you expand your network's potential.

Design flexibility – performance rated

Our portfolio of 1.2mm pre-terminated multi-fiber cable assemblies are designed for a wide variety of in-building applications and can be configured for your specific needs.

- Breakout types: Double-ended breakouts or breakouts-to-stub end
- Fiber counts: 4, 8, 12, 24, 36, 48, 72, 96 and 144 stranded fibers
- Use ratings: Plenum- or Dual Rated (LSZH/Riser)
- Connector: 22 combinations using ultra-polished or angle-polished MPO, SC, LC and stub end
- Breakout lengths: 20 inches to 120 inches
- Additional options: Available with or without pulling socks

These in-building assemblies use no metallic strength members and are designed to meet the fire-resistant characteristics required in a variety of central office applications. All assembly components have passed the rigorous requirements of the Telcordia GR specifications.

- All fiber optic cable is tested in accordance with GR-409
- All single fiber connectors are tested to GR-326 performance specifications
- All MPO fiber connectors are tested to GR-1435 performance specifications

Decrease installation time – increase fiber density

These pre-terminated 1.2mm multi-fiber cable assemblies provide fast plug-and-play turn up of new customers and services. They are designed for use with all ODF systems, including CommScope's popular NG4 frame, enabling you to support greater fiber density without sacrificing manageability.

Ordering information

Use the following information to help configure and order your pre-terminated 1.2mm multi-fiber cable assemblies.

Cable Family	
S	Plenum
W	Dual Rated (LSZH/Riser)

Connector A	Connector B
A	SM UPC/SC SM UPC/SC
B	SM APC/SC SM APC/SC

Partner with CommScope and expand your network's potential

With CommScope's portfolio of pre-terminated 1.2mm multi-fiber cable assemblies, speed meets savings and you get capacity without compromise. It's designed for visionary service providers who are eager to tackle tomorrow's challenges today, and supported by the leader in network infrastructure solutions.

For more information on our pre-terminated 1.2mm multi-fiber cable assemblies—or any of our fiber connectivity solutions—check out our Product Catalogue at www.commscope.com

We are CommScope: where now meets next.

CommScope pushes the boundaries of communications technology with game-changing ideas and ground-breaking discoveries that spark profound human achievement. We collaborate with our customers and partners to design, create and build the world's most advanced networks. It is our passion and commitment to identify the next opportunity and realize a better tomorrow. Discover more at commscope.com.
