

# 5 Facts about Cable Exchange—a CommScope company

## 1. One- to five-day turnaround

We typically assemble and ship customized assemblies within five days after an order is placed, or 24-72 hours upon request.

## 2. One-year warranty

By joining CommScope, we're backed by a global leader in the research, manufacturing and distribution of cabling infrastructure, and back it with **CommScope's one-year limited warranty**.

## 3. Local, quick support

Our large team of 15 **support personnel** is ready and available to help with ordering assistance, quotes and more. Minimal wait to speak with live person based **in the United States**.

## 4. Engineering capabilities

Our **local** engineering team can provide technical assistance by creating or assisting with bills of materials (BOMs), drawings, site evaluations and **customized solutions**.

## 5. Copper and fiber assembly expertise

We can fabricate any type of assembly from **East and West Coast manufacturing** facilities to suit your specific needs, including: fiber patch cables, sub-unitized fiber trunks, distribution fiber trunks, micro-core fiber trunks and copper patch cables.

For more information on our assemblies, call (800) 422-2539, email [CEX-Customer-Service@commscope.com](mailto:CEX-Customer-Service@commscope.com), or visit [commscope.com/cable-exchange](https://commscope.com/cable-exchange)
